Didsbury Nurses Graduate.

Local girls were amongst the nurses who graduated from the Calgary General Hospital at the graduating exercises held in the First Baptist Church, Calgary on Friday evening last. Miss Ruth Johnston, daughter of Mr. and Mrs. Peter Johnston and Miss Amy Wilson, daughter of Mr. Charles Wilson.

Amongst the Didsbury people who attended the graduation were: Mr. and Mrs. Peter Johnston and family, Mr. Chas. Wilson, Mrs. Troyer, Miss Nellie Wilson, Miss J. Wilson, Mr. and Mrs. E. A. Deadrick, Mrs. S. J. Curtis, Mr. and Mrs. Lantz, Miss E. Sinclair, Mr. F. Sinclair, Mr. W. Shoshbottom, Miss M. Brown and Mr. and Mrs. J. K. Whiteside.

Didsbury—Carstairs Local.

The Didsbury-Carstairs District A.T.A. Local held its second meeting on Saturday, May 2nd in Didsbury Public School, the president, Mr. C. R. Ford (Didsbury) in the chair.

Upon the conclusion of business the Local was favored with two extremely interesting and helpful addresses by Mr. R. D. Webb and Mr. M. W. Brock, both of Calgary. These were followed by a lively discussion capably led by Mr. Webb.

The members and visitors then adjourned to the home of Mr. Hembling where a dainty lunch was served by Mrs. Hembling.

SLOGAN IS ADOPTED FOR WORLD'S GRAIN EXHIBITION

"Show What You Grow and Share What You know."

This is the slogan which has been officially adopted by the World's Grain Exhibition and Conference to be held at Regina in 1932.

A short time ago the organization announced a slogan contest, offering \$500 for the best ten-word phrase which would typify the objects of the World's Grain Exhibition and Conference.

Over 7,000 entries were received representing approximately 18,000 slogans. They came from almost every part of the world and after careful consideration the board of judges recommended "Show What You Grow and Share What You Know," submitted by A. P. Stretton, of Calgary, Alberta. Mr. Stretton is an Englishman by birth and has lived in western Canada for a number of years. At one time he was connected with the Saskatchewan Co-operative Elevator Co. at Regina. He is now connected with the Alberta Pacific Grain Co. The board of judges consisted of: Hon. J. T. M. Anderson, Premier of Saskatchewan, Hon. J. T. Brown, Chief Justice of the Court of King's Bench of Saskatchewan and Dr. Walter C. Murray, president of the University of Saskatchewan.

Mrs. R. Barrett and Mrs. J. L. Clarke spent Monday evening in Calgary.

"Amateur" Baseball Is Expensive

With the arrival of spring weather, naturally our thoughts turn to baseball and it looks as if Crossfield, winners of the Rosedale League in 1929 and '30 will not be able to finance an amateur team this year, as the paying of "amateurs" comes awful high in times of depression.

The men behind the ball team last year have a past due note at the bank along with other bills that is going to take considerable joy out of life for them.

—CROSSFIELD CHRONICLE

LOCAL & GENERAL

Mrs. A. G. Studer and Miss Winnie Studer have returned home after spending several weeks at the coast.

English Watches, Grandfather Clocks, and Chimes. Everything Ancient and Modern. Bring it to W. Monteith, North End Jeweller.

Evening and sermon at St. Cyprrian's Anglican Church this Sunday, 7:30 p.m., Rev. A. D. Currie, of Crossfield officiating. Watch for future announcements.

A General Hospital for sick Watches, Clocks, Phonographs, Sewing Machines, Etc., Etc. In front corner of Club Lunch. All work guaranteed.—Advt.

At the Opera House this evening, May 7th, "Viennese Nights." A spectacular story daintily conceived and lavishly produced. Talking and singing. 25c, and 50c. 2nd episode of serial.

Mr. and Mrs. J. Boorman and Mr. H. O. Tonjum took part in "H.M.S. Pinafore" which was played by Olds Choral Society on Monday and Tuesday evenings in Olds and on Wednesday evening in Innisfail.

Mr. Geo. Julien went to Cromona on Saturday evening where he attended a meeting of the local trade. George says the new little town is fully alive to itself and that over 58 members attended the meeting.

Messrs. J. A. McGhee and J. McDougall went to Red Deer on Tuesday last week and Calgary last Monday evening, where they paid official visits to the chapters of Royal Arch Masons in both towns. They were accompanied on each occasion by a large number of local masons.

The copy for the prize-list of the Didsbury Fair which will be held this year on Tuesday and Wednesday, July 28th and 29th is being prepared for the printer. All who wish to advertise in the prize-list or contribute special prizes for the fair are requested to hand in their listing to the secretary this week-end.

The presentation of "H.M.S. Pinafore" was given at the Auditorium, Olds on Monday and Tuesday evenings before a crowded house and everyone present spoke very highly of the production. The opera will be given in the Opera House tomorrow evening (Friday). This will give the people of Didsbury an opportunity of seeing a really high class musical production and one that everyone who can should take advantage of. We understand that the ticket sales are progressing very favorably. Tickets may be obtained from members of the Knox United Church and reserved seats at Chamber's Drug Store.

24,000 Packages In One Year

That Rosedale Patented Flour is meeting with success is evidenced by the amount of business the Rosedale Flour Mill has done in this branch during the last year.

It is just a year ago since this patented flour was first put on the market and Mr. Weber states that since that time they have sold a little over 24,000 loads. Mr. Weber is now traveling in the southern part of the province and says he has been able to introduce the flour into every store south of here. In addition to this it has large distribution in the Edmonton district and shipments have been made to Manitoba and B.C.

Chinese Pheasants Doing Well

The local sportsmen who are raising wild game with the object of stocking the district report that their efforts are meeting with good success.

The Chinese pheasants that Mr. Geo. Julien is keeping in his backyard are now producing eggs and George says he expects to raise forty or fifty young pheasants this year.

Mr. J. H. Rosegood is meeting with good success at his farm and the flock that has been liberated in the neighborhood is reported to be doing fine.

Mr. H. Hawkes is experimenting with wild ducks and hopes to raise quite a number of them. If Henman can keep the kiddies from putting rings round the ducks' necks he will undoubtedly be successful.

New Manager For Baseball Team

A new manager in the person of Mr. E. V. Woodcock was elected at the organization meeting of the baseball club held on Tuesday evening. Mr. Woodcock has had considerable baseball experience in the past and will undoubtedly be able to whip the boys into shape to give a good account of themselves this season.

The attendance at the meeting was not large, but considerable enthusiasm was shown as to the prospects for the season. The secretary's report showed that while there was only a small balance on hand, the club was in good shape.

It was decided to again join the Rosedale League which will probably be comprised of: Innisfail, Olds, Didsbury and Carstairs.

The following officers were elected:

President: Mr. J. V. Berscht
Vice-president: Mr. C. E. Robber
Secretary: Mr. W. McFarquhar
Manager: Mr. E. V. Woodcock
Grounds Committee: Messrs. Carlsson, Lee, Shorman and the Manager.
Finance Committee: Messrs. Kaufmann, Keith and Ed. Ford.
Transport Committee: Messrs. Russell Berscht and Jack McCloy.

Coming Events

St. Cyprrian's W.A. will serve afternoon teas and hot suppers on Wednesday, 20th May at 3:30 p.m. at the home of Mrs. J. H. Lowrie. All golfers and half-holidaymakers welcome.

Where West Leads The East

General recognition is accorded to the fact that the West leads the East in grain and livestock production. It is known that the Western Provinces have a greater railway mileage per capita than the older settled provinces. It is an established and recognized fact that there are more rural telephones per capita in the West than in the East. It is not so well known that the West leads the East by a wide margin in the field of aviation. Yet such is the case as disclosed by the first annual report of Canadian Airways Limited, recently issued.

According to the report of this company, which is an amalgamation of all the large aviation companies in the Dominion, and in which the Canadian Pacific and Canadian National Railways are now largely interested, the amount of air business done in the West far outstrips the volume of Eastern business, and that operating conditions in the West are more favorable with the result that there is less non-productive flying and consequently greater profits here than in the East.

The figures given in this report will prove most illuminating and interesting to western people. They cover twelve months operation of the Eastern lines, and thirteen months operation of the Western lines. It is shown, for example, that the total mileage flown in the East was 754,199 miles, as compared with 1,213,525 miles in the West. Total flying hours in the East were 7,858, but with the Western total 13,137, or almost twice as great.

But it is when one comes to a consideration of the amount and value of the business transacted, and the efficiency in operation, that the ascendancy of the West over the East in flying is most strikingly illustrated. Mail matter carried over Eastern lines amounted to 126,439 pounds, while the corresponding figure for Western lines was 267,183 pounds. Freight and express carried on the mail planes in the East was greater than in the West, being 11,971 pounds as compared with only 367 pounds, but freight and express carried on other than mail planes tell an entirely different story and reveal the extent to which this form of transportation has been developed in the West. So less than 40,000 pounds of package freight and express was transported by air in the West, as against 82,151 pounds in the East. In other words, the East has not developed this department of air service, apart from the regular mail planes, to anything like the extent that has been done in the West.

In passenger traffic, both on mail planes and other aerial services, an even more surprising record has been established by the West, showing that our people are becoming air-minded. The number of passengers carried on mail planes in the East was 269, and in the West 3,246; on planes other than the mail planes, 1,147 Eastern people travelled by the air route, while in the West 5,308 chose the same method. Considering the much larger population of the East the fact that 7,051 Western passengers travelled by air as compared with 1,749 in the East speaks eloquently for this Western country.

This Western preponderance in the air has no doubt partly accounted for the fact that the West is now regarded as an ideal country for flying operations, and also because of the further fact that distances between points to be reached are much greater in the West than in the East. That the West is well adapted to flying is demonstrated by the figures of mail efficiency contained in the report under review in this article. Out of a scheduled or possible mileage in Eastern Canada of 677,031 miles, only 558,294 miles were actually flown, leaving a lost mileage of 118,737, or only 82.4 per cent of efficiency. In the West, on the other hand, out of a scheduled or possible mileage of 1,016,778, productive mileage flown totaled no less than 708,544, leaving only 308,234 miles lost and representing an operating efficiency of 92.7 per cent.

The flighted airways of the West, making night flying practicable and safe, and the very fine municipal airports now in existence and being steadily improved, coupled with the excellence of flying conditions in general throughout the prairie country, provide an assurance that air transportation will more and more prove an important factor in the life of Western Canada, and in all probability a greater factor here than in the older sections of the Dominion.

He who will learn of none but himself
 will find a fool for a master.

Australia's apple crop this year is estimated at 7,000,000 bushels.

PAINS

No matter how severe,
 you can always have
 immediate relief!

Aspirin stops sharp pain quickly. It does it without any ill effects. Harmless to the heart, harmless to anybody. But it always brings relief. Why suffer?

A Secret Expedition

A. Innes Taylor, only Canadian to accompany Byrd on his Antarctic expedition, has arrived at Vancouver from White Horse, Yukon, to admit that he is soon to join another expedition of exploration which, however, he declared he had been ordered not to reveal. The expedition, though not, he stated, to be conducted in secrecy. Formerly a member of the R.C.M.P., he had charge of all the huskies with Byrd.

Three Ingredients Needed

A bilious child for these ingredients, and must have all of them: cold, high wind, and a heavy snowfall, with the latter not so important as the first two because cold and a high wind to keep the snow in the air can create the impression of a heavy snowfall even when it is comparatively light.

No man is wise enough to ignore the things he will do with his hands.

Canada Well Advertised

Descriptive Booklet Was Distributed At Buenos Aires Exhibition

Canada was well advertised at the Buenos Aires exhibition in the Argentine Republic, fifty thousand copies of an artistically-designed booklet descriptive of this country having been sent to the exhibition for distribution. The booklet is written in Spanish and so is the wording on a series of beautiful pictorial blotters that were distributed with it.

The publicity branch of the Department of Trade and Commerce produced the booklet, which is of a quality reflecting credit upon the publicity director, H. E. M. Chisholm. The author does not forget to tell his South American readers that Canadians invented the telephone, originated the idea of standard time, built the first submarine telegraph, made the first electric stove, discovered insulin and did other remarkable things. Many of our own citizens would profit from reading what the bloter has to say about our form of government, our national resources and the characteristic features of the country.—Toronto Star.

Acids In Stomach Cause Indigestion

Medical authorities state that nearly all indigestion is due to acids in the stomach. Indigestion, sourness, bloating, flatulence, and other troubles are all due to an excess of hydrochloric acid in the stomach. This acid is secreted by the stomach glands. It is secreted in excess in the case of indigestion, and it is this excess which every stomach sufferer feels as well.

Artificial digestants are not needed in such cases. They only irritate the stomach, and by doing so cause more acid to be secreted. Mucous and take in water. This water dilutes the acid, and the stomach prevents the formation of excess acid. If there is no excess, the stomach is healthy. Indigestion is caused by an excess of acid in the stomach, independent of the food. The food is not the cause of indigestion, but it is the cause of the excess of acid in the stomach.

Novel Christening

Cracked Ice Is Tied To Christen Submarine That Will Cross Arctic Ocean

They used cracked ice to christen the "Nautilus," the reconnoitered submarine in which Sir Hubert Wilkins plans to cross the Arctic Ocean this summer.

The cracked ice was contained in a small silver barrel perched on the prow of the vessel. Lady Wilkins yanked a string, and the barrel discharged its contents symbolically. The contents—symbolic because the "Nautilus" will attempt to cross the top of the world under ice floes, coming up now and again for air and observations.

The Family Physician. The good doctor is always worth his fee. But it is not always possible to get a doctor just when you want him. In such cases, common sense suggests the use of reliable home remedies, such as Dr. Thomas' Electric Oil, which is wonderfully effective in curing inflammatory pains and healing cuts, scratches, bruises, and sprains. The presence of this remedy in the family medicine chest saves many a fee.

And the relatively small number of railway wrecks may be due to the fact that the engineer never hugs the fireman.

With so thorough a preparation at hand as Miller's Worm Powders, the mother who allows her children to suffer from the ravages of worms is unwise and careless. A child subjected to the attacks of worms is always unhealthy, and will be stupid in his growth. It is a mercurial aid to rid it of these destructive parasites, especially when it can be done without difficulty.

A herd of starving deer in Alaska, was recently fed by hales of hay dropped from airplanes, very much like manna from above.

The Issue In India

Retired Official Gives His Opinion on the Situation

"I have been in India 46 years and cannot help thinking that most of our troubles are due to the fact that in the past, politicians failed to think out the results of their actions to their logical conclusion," said Field Marshal Sir William Birdwood, who has just retired as commander-in-chief in India, in a speech to the London Devonian Society, England.

"I hope that whatever government is in power will remember that the masses of India are illiterate and uneducated and will see that the safeguards we read about will be real safeguards; and that those people will not be handed over to the intelligentsia who speak in the name of India without having the same affection for the cultivators of the land as we English people have," the field-marshal added.

Just As Dangerous

Mother was poking about in the shrubs when she suddenly called out: "Look, Junior! Here's a little green snake!"

"You better look out," cautioned Junior. "It may be just as dangerous as a ripe one."

Causes Publication

After 102 years of publication, the **Athenaeum Magazine** is disappearing from London news-stands through a merger with the **New Statesman and Nation**. The new magazine will be committed to no political policy, its sponsors say.

DRAPERIES MADE NEW

"When we resumed housekeeping a month ago I found my draperies had become creased from packing. I hung them out on the line, hoping to remove the creases. Then I forgot them. The result was they became badly faded and sun-spotted."

"I was heart sick until the happy thought struck me to dye them. I just dyed them a deeper gray, and as I used Diamond Dyes they look gorgeous and new. I have never seen easier dyes to use than Diamond Dyes. They give the most beautiful colors—when used either for tinting or dyeing—and never take the life out of cloth as other dyes do."

Mrs. J. F. T., Montreal.

Alberta Egg Production

Alberta shipped 115 cars of eggs eastward in 1930, according to R. H. Ennismore, federal egg inspector, who added that the months of January and February this year had apparently been record ones in egg production.

Smothering and Fainting Spells

Everything Would Turn Black

Mrs. Andrew Black, Harcourt, N.B., writes:—"I had been troubled with smothering and fainting spells and everything in front of me would turn black, and I would fall down in a faint and be unconscious for several minutes. I did not know what to do, until one day I was reading where Milburn's Heart and Nerve Pills had helped so many people and decided I would give them a trial. I used four boxes and found they help me wonderfully."

Sold at all drug and general stores, or mailed direct on receipt of price by The T. Milburn Co., Ltd., Toronto, Ont.

Keep Foods Deliciously Fresh

Keep your foods—cakes, bread, pie, cut meats, etc.—under a covering of Para-Sani Heavy Waxed Paper. You'll be amazed at the length of time they'll stay fresh, delicious! Para-Sani keeps them from staling. Get Para-Sani in the handy, sanitary knife-edged carton. For less exacting uses ask for Appleford's "Centre Pull" Packs in sheet form.

Artificial Lighting Units May Be Used Instead Of Sunlight In The Grading Of Grain

Grading of grain in Canada is done by the natural light of the northern sky. In an effort to overcome the obvious inconveniences of this method, one of which is the difference in light at the various inspection points, and another, the limitation on time, the National Research Council, at the request of the Board of Grain Commissioners, has devised a series of artificial lighting units. E. B. Ramsay, the Chief Grain Commissioner, and J. D. Fraser, the Chief Grain Inspector, have inspected the results of the experiments and two of the most promising units are being shipped to Winnipeg to be tested.

In order to get sufficient uniformity of illumination the lamps are placed in an inspection stall which is boxed so the inspector cannot look directly at the light. The illumination in one of the units to be tested is a combination of direct and indirect lighting uniform over a table space about two feet square. Various combinations of mercury and neon lamps have been studied. To the layman one of the striking results of the experiments has been the difference in effect which various combinations of the lights had in showing up the defects or good qualities of the grain examined.

As a part of the general experiment the spectra of light reflected by various samples of wheat have been measured by means of a recording microphotometer. It was found that using light of wave lengths from the far red to about the blue, starchiness reflected more light than good, green or frozen wheat; green and frozen wheat approximately the same, and good wheat less than the others. Light of shorter wave lengths gave different results but the final conclusion reached was that there appeared to be no definite absorption of selective reflection of visible light which would make grading by physical means possible. Dr. D. C. Rose has been conducting the experiments in the John Street laboratories of the council at Ottawa, under the direction of Dr. R. W. Boyle, the director of the Division of Physics. Dr. Rose has been requested to supervise the installation of the lights in Winnipeg.

Market Must Be Regained

University Professor Stresses Increased Hog Production In Western Provinces

Increased hog production in the next few years was prophesied by Prof. J. P. Sackville, of the University of Alberta, in addressing the Saskatchewan Swine Breeders' Association at dinner at the Kitchener Hotel, Regina.

The need for regaining export markets for hogs was stressed by the speaker. E. P. Brocklebank, director of the Boys' and Girls' Swine Club, outlined the plans of this group to ship a carload of hogs to the Royal Fair next winter, in co-operation with the swine breeders. The president of the association, E. P. Richardson, presided at the dinner.

A man of over eighty claims to have made a transatlantic flight in a hot air balloon at a distance of a mile. All we can say is that he ought to know better at his time of life.

Rebecca: "You could have faked yourself—you can swim."
Rebecca: "Yes, but who can drink of that when he is drowning?"
—K. P. Stockholm.

Speed Of Light

Light Always Travels At A Uniform And Fixed Speed, According To Scientists

Light travels always at the same speed according to the finding of a scientist who thus adds fresh proof of the correctness of Professor Einstein's relativity theory in which it is assumed that the velocity of light is absolute. Prof. George Joss, of Jena University, Germany, claims to have proved the uniformity in the speed of light by the use of a device which he says measures accurately one-thousandth of the length of a light ray.

(By Annette).

THE NEW MODE IS JUST AS KIND TO THE CHILDREN AS THE ADULTS

Any little miss would adore this jumper dress that big sister is wearing at college.

It delights in the fact that it is an exact copy too of the grown-up mode. Even to the fabric which is a thin woolen in a small check pattern in light navy blue and white. The belt is blue shiny patent leather.

The tailored blouse chooses a cotton broadcloth in yellow-beige. The circular swaying skirt necessarily attracts much attention with the growing miss, who so loves to feel important in clothes of smart sophistication.

Style No. 187 may be had in sizes 6, 8, 10 and 12 years.

Coral-pink linen with white dotted swiss blouse is so pretty.

Sailor blue wool jersey with white lattice dotted in matching blue is another lovely choice.

Tweeds, tweed-like cottons, wool crepe cotton shantung prints, plaid, cotton broadcloth prints, gingham, tub silks, etc., are suitable and smart fabrics.

Spicing the season of prettiest styles, will soon be here. Prepare now by ordering a copy of our new Fashion Magazine. Attractive styles for women, misses and children. And instructive lessons in sewing.

Pieces of pattern 25 cents in stamps or coin (coin is preferred). Wrap can carefully.

LUCKY WINNER

Mary Pacheco, of New Bedford, Mass., a 21-year-old mill worker bought a dollar sweepstakes ticket to get rid of an inopportune salaried. She won the \$10,000 prize in the Army and Navy Veterans of Canada draw, and has just received cheque of \$38,303. Her profits after deduction of taxes.

Decide Menus Are Dull

Gastronomic Futurists Of Europe Urge More Beauty In Food

European Gastronomic Futurists, sitting at an Academy of Good Eating, have decided that our present menus are too dull and need more color and perfume; that talking at the table is as unbecoming as talking in church, and that the knife and fork must be suppressed.

Good food must be artistic, like sunsets and oil paintings, the academy decided and forthwith set about drafting an entire new set of recipes.

The Academy would turn the kitchen into mixed laboratory-beauty-shop with all sorts of scientific instruments. Good cooking would be a science, not an art, and the cook would follow a formula, like a chemist mixing drugs.

The Academy believes in music and perfume between courses. Before any dish is served, special music and a perfume to fit it are introduced. With woodcock, for example, there would be music of the hunting horn and perfume of the forest in October.

The Academy would end after dinner speeches. Oratory and cooking never mix.

The Academy suggests that between courses many beautiful and attractive dishes of food be carried to the table and named rapidly under the noses and eyes of the guests to excite the curiosity, surprise and imagination. These foods would not be eaten. There would also be a "food cocktail," one spoon filled with a concoction of a dozen tastes and perfumes.

War-Time Pilots Have Plan For Establishment Of A Royal Canadian Air Force Reserve

When the Current Goes Off

Everything Stops In This Highly Electrified Age

It makes us laugh, with a hearty old laugh, to see how completely our homes go to pieces nowadays when anything happens to the electric current. It used to be that when a storm broke down the electric wires, the only thing that happened was that the light went out. Now, when the light goes out, everything else quits too. There is no ice in the freezer, no music in the piano, no coffee in the percolator, no dialogue in the radio, no toast in the toaster; the vacuum cleaner stands still in the corner. Sister can't curl her hair. Brother's toy train stops running, the heat in the bathroom goes off, the bed-warmer doesn't work, and the orange-squeezer stops squeezing right in the middle of an orange. It's just a question of gathering around a log fire and marking time till the storm abates.

BETTY BARCLAY'S HELPFUL HINTS

Today Betty Says:

Unless we get sufficient vitamin "C" each day, tooth decay is very likely to set in. One prominent authority, Dr. Milton Theodore Hanke, of the University of Chicago, recommends a full pint of orange juice daily with the juice of a lemon added, as the proper daily amount of Vitamin "C" necessary to check dental decay. It's easy enough to make children take this kind of medicine. To them, such a drink is a luxury at any time of the day.

When following recipes, make your teaspoons and tablespoons level unless otherwise specified. Those who fail to do this cannot blame the recipe if anything goes wrong.

UNIQUE MODE OF TRAVEL

With five miles to and from work to travel each day, and with no means of transportation, W. H. Slater, a retired naval officer, devised this ingenious means of reaching his labors at Cliffe, Kent, England. The "rail-train" or land yacht, is constructed from an old quarry truck chassis and rails, and travels over the rails of the abandoned quarry at a fair rate of speed.

Efforts will be made to establish a Royal Canadian Air Force reserve following discussion at the first winter dinner of the Canadian War-time Pilots and Observers' Association held at Ottawa. Under the scheme senior officers who served overseas will be enabled to continue flying and through that medium increase public enthusiasm in air transportation.

Friendships were renewed and bonds of service recalled at the gathering of pilots. It was decided to make the dinner an annual affair and it will be held in Montreal next year.

Suggestion that Rockcliffe Field, Ottawa, be named "Baker Field" after the distinguished Canadian aviator, Lt.-Col. W. G. Baker, V.C., who was killed in an airplane accident there some months ago, came from J. A. D. McDurdy, of Montreal, first Canadian to fly a plane. He also suggested St. Hubert aerodrome, Montreal, be renamed "Bishop Field" after Col. W. A. Bishop, V.C., famous war ace, who was the guest of honor.

Besides Mr. McDurdy and Col. Bishop, Hon. D. M. Sutherland, Minister of National Defence, Major-General J. H. MacBrien, president of the Aviation League of Canada, and Major-General A. G. L. McCaughan, chief of staff, were among the speakers.

Seeking to increase enthusiasm for gliding, Aviation League of Canada, adopted a motion requesting the Department of National Defence to establish a curriculum of training for glider-flying. Accident were responsible for holding down the popularity of gliding in the Dominion, speakers held. It was suggested the defence department might supervise designs for gliders to be used in this country.

Close co-operation between the league and the Canadian Flying Clubs Association will be maintained. It was decided, as an agency for the development of Canadian aeronautics, it was decided that the national aircraft model contest which proved a success in 1930, should be repeated this year. Venue and date for the contest will be set later.

Needed Better Treatment

Indian Medicine Man Lost Fifth In Drum Beating

Out in Kamour, N.S., lives an Indian medicine man who he said is insured about his own medicine, according to a letter received at United Church Home Missions office in Toronto, from Miss Mendes, field worker, who does district nursing in the Kamour reserve.

In her letter Miss Mendes says the medicine man called upon her for attention. Previously he had always refused her offers of aid. When she asked the man why he did not buy the drum for himself and take his own medicine, he replied: "Some time drum alright. Sometime medicine alright. But no stick."

A Good Opportunity

The farm boys and girls who took special agricultural courses during the winter will find ample room in the home farm to try out their recently acquired knowledge. The problems were never bigger and the need of accurate information was more greater than now, says the Farmers' Advocate.

A study of the causes of heart disease has been started by New York State health officials.

"You seen said—have you lost an body?"

"Quite the opposite—I have just had triplets."—Montague, Charlevoix.

VALUE OF BARLEY FOR LIVESTOCK

(Experimental Farm Note)

With exports of Canadian bacon to Britain having fallen off rapidly there is an opportunity for the production of more pork products and especially so with the Western coarse grain selling at reasonable prices. Barley in particular is from the producers standpoint in poor demand, or from the buyers' viewpoint a cheap available feed. Thus the feeding of more livestock seems the logical means and actually an opportunity for the efficient marketing of a larger amount of the available coarse grains and in particular of barley.

Recently a pamphlet was issued by the Animal Husbandry Division of the Dominion Experimental Farms in which the feeding value of barley is shown for the various classes of livestock, and suggestions made for the proper balancing of rations with this feed. It is shown that barley is at least equal to corn for growing and fattening hogs. In an experiment conducted at the Napier Experimental Farm a group of barley fed hogs gained 122 pounds per pig per day, while a similarly fed corn fed gained 136 pounds per pig daily. The grain mixture fed to these hogs was evaluated at the same price, and in cost of gains the barley fed was slightly lower than the corn fed lot, the barley fed hogs costing \$7.67 per hundredweight gain, while the corn fed hogs cost \$7.75 per hundredweight gain.

In addition to the above comparison of barley and corn, there is further information on the value of barley fed as a single grain, the composition of barley, and its preparation for feeding. Rations are also included. Barley is an important component of

LOCAL & GENERAL

Scratch Pads may be obtained at the Pioneer Office, 2 for 5 cents.

Mr. and Mrs. J. W. Worlde spent Sunday in Calgary.

Messrs. Jim Morris and Bill Hartley were Calgary visitors on Sunday.

Miss Elsie Innes, who underwent an operation in the Holy Cross Hospital last week was able to return home on Sunday.

According to the "Market Examiner," a change in hog cuts went into effect last week when hams, extra-hams and hocks were cut half a cent more than previously.

The costumes to be worn by Old-Church Society when presenting "H.M.S. Pinafore" were specially made by "Mildred," the noted costumier of Winnipeg. Nothing is being left undone to make this gorgeous production correct in every detail.

The motor-boat built by Harold Hardy is completed and a trial was made at Lake Tuesday night. There have been all kinds of comments made during its construction, but now saying it would not float, but Harold says he is going to name it "The Nervous" and expects it to be able to beat the speed limit.

Ranton's bargain sale which is now being held is proving to be a great success. Mr. Ranton states that on Saturday last, the first day of the sale he did more business than on any other day since he came to Didsbury. The sale will continue till Saturday, May 16th. Ranton says "It pays to advertise, but you've got to deliver the goods."

At the last session of the legislative assembly, several amendments to the Public Libraries Act were made, the most important of which since the time of the first session of the legislature was the provision for the co-operation between libraries and recognized library service provided by voluntary agencies approved for the purpose by the minister of education. This provision is of great interest to districts that do not possess a municipal library, and all who are interested in getting more information on this are asked to communicate with Mrs. J. E. Innes, Secretary of the Library Association, University of Alberta.

For growing and fattening hogs, which combine the necessary nutrients for the correct feeding of hogs, these rations, and is included at the rate of 25 and 30 per cent of the grain mixture for growing and fattening hogs respectively. Along with this, oats are included at the rate of 35 and 50 per cent, and thus the rations suggested are made up very largely of home-grown feeds, which at present prices of grains will make very economical rations.

Copies of the above mentioned Pamphlet No. 127, "The Greater Use of Barley in Livestock Feeding," and another publication on the feeding of barley to poultry, Pamphlet No. 125, "Canadian Grain Growing in Poultry Feeding," can be procured, free of charge, from the Publications Branch, Dept. of Agriculture, Ottawa, Can.

Rocky Mountains are Ideal Holiday Land

Beauty unrivalled, health-giving altitudes, all the comforts that modern ingenuity can devise and "something to do" all the time await the army of travellers from all over the world, which annually invades the glorious Canadian Rockies through the Banff Springs Hotel and the Chateau Lake Louise. These stately up-to-date hostels, which open on May 15 and June 1, respectively, are not only key-points to the most beautiful mountain territories in the world, but are, themselves, located in settings of a beauty which has to be seen to be truly appreciated. On the main line of the Canadian Pacific Railway, which even and overland travel, they are equipped not only to be "homes from home" to the travelling public and holiday-makers in the generally accepted sense, but to furnish entertainment for their guests in many and varied ways. Auto drives, trail-rides, boating, fishing, swimming, golf, tennis, hiking and mountaineering, to say nothing of the famous Indian Days and the Highland Gathering, are all part of programs which years of experience have brought to perfection. Experts in all lines are in attendance to be of service to the hotel's guests and real cowboys, red-coated "Mounties" and true Stony Indians lend color to a hundred variations of uniquely picturesque scenes. There is never a dull moment at Banff or Lake Louise. There is something for every taste and the rounding off of full days by dancing in cool and spacious ball-rooms, to smart orchestras, is not the least of the attractions offered.

The pictures show: (1) the Banff Springs Hotel; (2) a typical Stony Indian; (3) the Chateau Lake Louise.

Inter-school Baseball & Basketball Schedule.

The schools of Innisfail, Bowden, Olds and Didsbury have arranged their annual spring schedule of baseball and basketball games. The following is the schedule for the coming season.

	INNISFAIL	BOWDEN	OLDS	DIDSBURY
Innisfail	HOME	MAY 29	MAY 21	MAY 15
Bowden	MAY 1	GAMES	JUNE 5	MAY 8
Olds	MAY 5	MAY 15	READ	MAY 29
Didsbury	JUNE 5	MAY 21	MAY 2	DOWN

The first games were played last Friday when the Olds players visited our town and won over both teams. The girls were defeated by a score of 16-6 and the boys were overwhelmed by the score of 18-6.

BIRDHOUSE COMPETITION

On account of the final date of the birdhouse contest being close to a holiday, the time has been extended and the date of birdhouses must be brought in will now be June 6th.

BIRTHS

To Mr. and Mrs. Peter Esau on May 2nd, a son and daughter.

To Mr. and Mrs. D. Rhinehart on April 2nd, a son.

To Mr. and Mrs. Henry Harder on May 3rd, a son.

To Mr. and Mrs. A. C. Fisher on May 3rd, a son.

Letter of Thanks.

The children, Mrs. Wood and the board of trustees of the Wood's Christian Home, Bowness Calgary desire to express publicly their sincere thanks for the splendid contributions in cash, flour, wheatlets, vegetables, farm produce, clothing, etc. which we received from all the good folks of Didsbury through Messrs. McDougall, Clarke and McGhee. Such gifts are most acceptable and real tangible evidence of the great interest you are taking in our work. The task of administering to nearly one hundred underprivileged children would be well nigh impossible if it were not for our many good friends all over the province and among whom we are indeed pleased to include the people of Didsbury.

Many little bairns are helped along the rough pathway of their young lives and given the opportunity to become good true Canadian citizens by the helping hand of those whose lot has been cast in more pleasant places and whose hearts are extended by benevolence and charity.

We invite you to visit our "Home," see the work we are endeavoring to accomplish, watch our "Big Family" at work and play and you will no doubt be convinced of the great service we render the poor little "mites" who come under our care.

Mrs. Wood, "mother" of the largest family in Alberta will welcome you and with her soft voiced sweet Scottish accent tell you of the many heart-breaking stories surrounding the lives of her children and show you how happy and contented they are now. Kindness, love, affection, christian influence and worthy while environment are the outstanding ingredients which go to make the little folks happy and give them an outlook on life that the circumstances of their birth could not afford them.

This is the work, dear friends you are assisting us to do and "Inasmuch as ye have done it unto one of these my little ones, ye have done it unto me" said the Master.

The local committee who solicited contributions for the Wood's Home wish to express sincere thanks to those who contributed cash; those who contributed so liberally: wheat, vegetables, eggs, butter, poultry and meat; the members of the W.I. for their co-operation; Mr. Manassah Weber for milling the wheat free of charge and Mr. James Cathness for his splendid donation of free cartage from Didsbury to the "Home" in Bowness.

"The board of trustees of the 'Home' have many times publicly congratulated the people of this district on their splendid contributions and your committee have a right to feel proud of the results attained and are deeply grateful for the co-operation and ready response.

Jas. McDougall,
Jas. Clarke,
Jas. McGhee.

DDD for skin affections

It cools, soothes instantly. A fluid that actually does wash the blemished skin clean. A bad skin is unfortunate, embarrassing, unnecessary, with this formula so rich in healing elements.

WHY FAT MEN STAY FAT

"The trouble with me, and I guess this applies to 90 out of every 100 men who are putting on weight, I didn't have the energy or 'pep' to keep it off. Just all interest in my bodily activities, and just lived around accumulating the old pounds, until I got that 'Krischen feeling'."

Start taking Krischen Salts—that's the common-sense way to reduce—but don't take them with the idea that they possess reducing qualities in themselves.

This is what they do—they clean out the impurities in your blood by keeping the bowels, kidneys and liver in splendid working shape, and fill you with vigor and fresh energy.

As a result, instead of pinching yourself in an easy chair every free moment and letting filthy fat accumulate, you feel an urge for activity that keeps you moving around doing the things you've always wanted to do and need to do to keep you in good condition.

FREE TRIAL OFFER

If you have never tried Krischen Salts at our expense, we have distributed a small trial packet of "GLEAN," which makes it easy for you to realize the "Krischen feeling."

Ask your druggist for the new "GLEAN" 25c packet. The contents of our regular 75c bottle together with a quantity and trial packet of Krischen Salts. Then the trial bottle last, put it in the mail and then it will be sent to you. Krischen Salts are the only medicine to do the whole body is well and healthy. It is back to the normal state of the body. You have tried Krischen Salts at our expense. What could be better? Write to: E. C. Miller, 1180, Imperial Building, Ltd., Toronto.

WORLD HAPPENINGS BRIEFLY TOLD

The next session of congress will probably see restriction of immigration from Canada to about 4,000 annually.

A general election in Britain before the end of the present year was predicted in an address by S. K. Radcliffe, British journalist.

The visa fee for Canadians going into China has not been increased so far, it was learned at the Chinese consulate at Ottawa.

A visit to Canada by Lord Jellicoe, as a delegate to the British Empire Service League meeting at Niagara Falls, is expected to take place in August.

Severe losses through outbreak are predicted for 1931, in Saskatchewan if average weather conditions prevail according to a warning by the Department of Agriculture.

Preservation by Canada of early specimens of architecture was urged at a meeting of the Royal Canadian Institute by Prof. E. R. Arthur, of Toronto.

About fifteen million years ago giant seals fifteen feet long climbed around the stern cliffs of Quebec. A piece of the shell of one of these monsters of the Ordovician period has been found imbedded in a limestone cliff on Vincent Hill.

The ban on the use of dogs in hunting deer may be brought into effect by legislation at the present session of the Ontario legislature. After several contentious sessions, the fish and game committee voted 10 to 9 in favor of continuing the use of dogs.

Aching CORNS STOP HURTING INSTANT RELIEF!

Just a drop or two of Putnam's Corn Extractor, and the pain goes away. Relief is almost instantaneous. Removing corns with "Putnam's" is so easy, so sure, so painless—thousands use this wonderful remedy and say it is the best. Don't suffer any longer, use Putnam's Corn Extractor, the one sure relief for sore corns. Sold at every drug store, 35c.

PUTNAM'S

W. N. U. 1884

Many Tourists

5,409,438 Motor Cars Entered Canada From United States in 1930

A total of 5,409,438 motor cars conveying tourists entered Canada from the United States in 1930, or 900,040 more than in 1929. Of the total 4,110,106 came for a stay of not more than 24 hours; 1,297,000 for a period not exceeding 60 days, and 2,328 for not more than six months. The Province of Ontario had the most visitors, for 4,101,603 cars were admitted, principally at Windsor, Bridgeburg, and Niagara Falls. Quebec came next 649,520 cars, followed by New Brunswick with 209,110; British Columbia with 185,118; Manitoba, 151,687; Alberta, 30,519; Saskatchewan, 29,099; Nova Scotia, 2,210, and Prince Edward Island with only one, which was 100 per cent increase over 1929.

Tourists from the United States find no handicaps to their visiting their nearest and friendly neighbor. They do not require passports, and automobiles may be brought into Canada for tourist use for a period up to 90 days without duty or bond and for a period up to six months by fulfilling certain requirements. It is quite unnecessary for a tourist entering Canada to pay any fee for an automobile entry permit or for its extension as Canadian Customs officers will, without charge, assist the tourist in making out the necessary papers. Canada extends a welcome to visitors from the United States and other countries.

Only Source Of Revenue

Advertising Space Has To Sell Newspaper But To All

The one thing the newspaper has to sell for profit is advertising space, as most circulation departments are operated at a loss. Yet it is odd how often people will ask that this space be donated.

The newspaper industry is today the most highly unionized in the world. A recent survey of 28 industries shows that the printer is the most highly paid workman. The only way the newspaper can get the money to pay its printers is by selling its advertising space. What other industry is asked to give away its product?

This situation is a relic of the days when newspapers cost little to equip or produce. In those days the printer got his pay if the money came in. But nowadays unfortunately the editor or has to do like other employers of labor—he simply cannot continue in business unless he is a fair business man. Experience has shown that the too generous publisher usually goes out of business. And yet the newspapers keep on denouncing the only thing they have to sell.

An efficacious household remedy—Douglas' Egyptian Liniment. Brings immediate relief to lame back and muscular rheumatism. Also relieves inflammation, burns, sores, corns and warts.

Discounts Russian Wheat Menace

Predicts That Within Five Years There Will Be a World Glut For Wheat

The dark shadow of Russia on the wheat marketing picture will vanish gradually.

Within five years, there will be a world glut for Alberta wheat.

Such were two of the main points in an optimistic address, delivered by Premier J. E. Brownlee, at the annual banquet of the Alberta Association of Professional Engineers in Edmonton. At the time he was replying to the toast to "The Province of Alberta."

Declaring that Russia was at the lowest margin upon which human life survived, Mr. Brownlee said it was evident that the country would move to higher standards of living.

Condensed Milk Sales

The consumption of condensed milk in the three Prairie Provinces in 1930 reached the large total of 279,000 cases, as shown in a report of the Saskatchewan Board of Trade. Manitoba used 65,000 cases; Saskatchewan, 64,000, and Alberta, 150,000.

OVER 15 MILLION JARS USED YEARLY

Queer Place For Chapel

Four Bridges In England Have Church On Them

Walden's historic bridge over the River Calder—one of the four bridges in England to have a church on them—built upon it is to be relieved of much of its traffic by the erection of a new bridge near by.

Such a bridge has long been necessary, since the present one is much too narrow to accommodate the heavy stream of traffic flowing between Leeds and Sheffield. The present bridge is to remain with its famous chapel in its historic position. The chapel has been used as a bacon factory, an old clothes shop, a library, a dairy, a corn factor's office, a jail, and since its restoration in 1812, as a church.

Asthma Can Be Cured. Its suffering is as needless as it is terrible to endure. After its many years of relief of the most stubborn cases no sufferer can doubt the perfect effectiveness of Dr. J. D. Kellogg's Asthma Remedy. Comfort of body and peace of mind return with its use and nights of sound sleep come back for good. Ask your druggist; he can supply you.

British Wholesale Society

May Establish Packing Plant In Western Canada

The Toronto Globe publishes the following despatch from Ottawa: "Representatives of the Co-Operative Wholesale Society, with headquarters at Manchester and hundreds of stores throughout England."

conference with Hon. Robert W. Minister of Agriculture. It is understood the "Co-Op." as it is popularly known in Britain, is contemplating establishment in Canada. The visitors also are looking over the ground to see what they can purchase from the country in the way of food products.

"Their packing plant may be established in western Canada, H. S. Arkell, superintendent, and J. M. King, secretary of the Canadian Livestock Co-Operatives, accompanied them."

Delegation May Bring Better Trade Relations

Increased Business With Argentine May Result From Visit

The visit of the Canadian trade delegation has aroused the press of Buenos Aires to comment very favorably on the prospects of closer trade relations between the two countries.

It has even been suggested that negotiations be initiated for a mutual understanding between the Argentine and Canada on the all-important question of marketing wheat. Both countries, it is pointed out, would greatly benefit by such a move, although a basis of any such agreement has not yet been suggested.

Cordial discussions took place over a week-end between members of the Canadian delegation and representatives of the Argentine Government. Arising out of these discussions, it is confidently anticipated more profitable future business will result for both countries.

Wear On Shoes

The U.S. Bureau of Standards in Washington, D.C. has a walking machine for testing the life of shoe leather. In 24 hours the machine gives the equivalent of several months of wear to a pair of shoes, while observers study the reaction of the leather to the severe strain of the test.

Some grades of silk have been cheaper in London recently than they have been for 100 years.

In a recent month Norway exported 18,500 tons of fish.

BLACKHEADS

Don't notice any longer from these unsightly blemishes. Overcome them at home! Get 2 oz. Pore-King Powder from your druggist. Struggle a little on the face cloth, apply with a circular motion and the blackheads will be all WASHED AWAY. Satisfaction or money returned.

This Motorist Was Lucky

Escaped With Minor Injuries Train Smashed Car But Driver

Motorists who race locomotives to grade crossings seem to be blessed sometimes with an amazing good fortune. The driver of an automobile in the Southern States, recently was hit amish by a third engine. His life was saved by little short of a miracle. The locomotive crushed the wheels of his automobile, the chassis of the car dropped to the railroad tracks, and the automobile and driver were pushed along the track at a good rate of speed for more than 150 feet. The driver escaped with minor cuts and bruises. He collected the spare parts of his automobile, and aided by the railroad wrecking crew managed to get his smashed motor car to a vacant lot.

The milky way of the heavens is said to contain approximately 20,000 million fixed stars.

Morocco plans to develop its coal and iron ore resources.

Which Would Do Most Work?

Long Hair is like a blanket. Leave it on and your horses sweat excessively and all night this cold wet blanket of long hair chills the horse and prevents proper rest. Horses in run down condition are easy prey to colds, pneumonia and other ills.

Remove the long hair. Clipping gives new life to horses—they do more work on less feed—are dry at night and get proper rest. Clipped horses easily groomed, less subject to illness, always fit for full day's work. Keep your horses on the job. Clip NOW!

New Stewart CLIPMASTER
"an electric clipper for clipping horses and cows, weighs only 3 1/2 lbs. and easily held in hand like grooming brush. Works from light socket, has 25 ft. extension cord, special universal motor. Price complete, only \$28.75."

WINDOLITE

THE ORIGINAL GLASS SUBSTITUTE
MADE IN ENGLAND SINCE 1917 ON ORIGINAL PATENTS

This unbreakable glass substitute is light and flexible, easy to cut and fit, will withstand extreme changes in temperature, keeps out cold and wet, but allows the full sunlight to enter, including the health-giving Ultra-Violet Rays, which do not penetrate ordinary glass.

CUT DOWN YOUR LOSSES BY INSTALLING WINDOLITE

USE WINDOLITE IN:
BROODER HOUSES
LAYING PENS
DAIRY BARN
SUNROOMS
ETC.

Canadian breeders of poultry and livestock are finding Windolite a most satisfactory and profitable investment. Young chickens and turkeys are entirely free from leg weakness and disease and will thrive in confinement under Windolite. Windolite comes in rolls any length, but 36 inches wide only.

CROP REPORTS and BUSINESS SUMMARIES

DURING the season the Bank of Montreal issues periodical reports on crop conditions throughout Canada.

Every month it publishes a "Business Summary" covering business conditions in the Dominion and in the countries where the Bank has offices.

Both of these publications are sent free to all who request to have their names placed on our mailing list.

BANK OF MONTREAL
Established 1817

Total Assets in excess of \$800,000,000

Didsbury Branch:
J. MARSHALL CAMPBELL, Manager.

Mountain View Notes

Miss Doris Brown was a visitor in Calgary on Saturday.

Mrs. W. Lilley returned to Moose Jaw on Saturday.

Miss J. Wilson attended the graduation of nurses of the Calgary General Hospital at the First Baptist Church on Friday.

A baseball match was staged between Mon and Neapolis schools on Friday last. Mona was ungalant enough to lose, the score being 13-19.

Farmers were overjoyed on Sunday morning to see a slight fall of snow. Gardeners too were a broad smile. One resident noticed lettuce appearing that was planted two weeks ago.

A DIRE NECESSITY.

There dwells a female very slight. Nearly a rural school.

She works and plans from morn to night.

Be the weather warm or cool. And yet her heart was often sore.

As pigs were always around her door.

Uprooting her newly-planted seeds. Some of which were to help in household needs.

So angry at last this female became. And on her husband put the blame.

"A fence I want," she sharply cried. To which the angry man replied.

"The seeding must be first of all. And then I'll listen to your call."

Resigned to fate, she dreamed of a fence. And endeavored to use her common sense.

She covered her newly-planted seeds With wire bought for other needs.

Until a fence is built around. She must perforce keep silence profound.

As domestic happiness can be easily wrecked. By alluding to pigs whose steps need to be checked.

—ORIGINAL

Melvin Notes.

Miss Marjorie White is visiting Mrs. J. McDougall.

Mr. and Mrs. A. Krebs motored to Calgary on Tuesday.

Miss Marie and Art Kershaw spent Sunday with Mr. and Mrs. Emil Krebs.

Reid Clarke and Albert McLaure were Sunday visitors with Mr. and Mrs. J. Clark.

Mr. and Mrs. A. Krebs spent Sunday with Mrs. Krebs' parents.

Mr. and Mrs. A. F. Covitz.

Mrs. Alma Good spent a few days last week with her sister, Mrs. Peter Johnston.

Mr. and Mrs. Ernest Clark were visitors at Mr. and Mrs. John Clark's one day last week.

We are pleased to say some of our natives are all done seeding, every person wishing for rain as the land is very dry. The wheat fields are showing up green even if the land is so dry.

Mr. and Mrs. Leeson and Mrs. Geo. Young called to see Mrs. S. O'Brien who lives north-east of town on Sunday evening. Mrs. O'Brien is up in her eighties and we are sorry to say has been confined to her bed for almost eight weeks.

Westcott Notes.

The regular monthly meeting of Westcott W.I. was held at Mrs. Emmor Tuggle's on April 30th.

The program for the afternoon started with the tying of a light confederate after which followed the business session.

Mrs. H. J. Steckley, convener of child welfare and public health read an interesting paper on infantile paralysis and disinfecting.

A picnic was arranged for Saturday, May 23rd at the Red Deer bridge near Elkton (same spot as last year).

Everybody welcome. Ladies please bring lunch baskets. The next W.I. meeting will be held at the home of Mrs. J. A. Hughes on May 25th.

Local News

Mother's Day services at Westdale, Westcott and Knox Church, Didsbury on Sunday, May 10th.

Miss Eva Rupp has returned home from Edmonton where she was attending the University of Alberta.

A free dance by the Junior U.F.A. will be given in Lone Pine Hall on Friday, May 8th (tomorrow). Refreshments sold at the stand.

Mrs. W. Pitt and Kathleen intend making a trip to England this summer. They are booked to sail on the new giant C.P.R. flag ship "Empress of Britain" from Quebec on July 18th.

We have received a card from Mrs. E. Y. Wood asking to have her paper sent to Victoria, B.C. She states that she expects to spend the summer in Victoria, Portland and San Pedro, California, after which she will return to her old home in Ohio.

The opera "H.M.S. Pinafore" which was given at Olds on Tuesday night drew the largest audience ever attracted to any concert ever held in that town. People who attended from Didsbury say it was the finest amateur performance they ever witnessed.

This is what the Didsbury High School boys felt like after the game against Olds last Friday evening.

RED CROSS

Donations of clothing especially for little children, will be gratefully received by the undersigned.

W. A. AUSTIN,
Secretary Red Cross Society
